Professional Summary

Results-driven Data Analyst with over 8 years of experience in financial risk management, compliance, and strategic analysis within banking and treasury operations. Adept at leveraging SQL, Python, R, Power BI, and Excel to evaluate risk, enhance detection systems, and deliver actionable insights. Strong problem-solver with a proven ability to navigate high-risk decisions, optimize processes, and collaborate cross-functionally to balance compliance with user experience. Passionate about empowering businesses through data-driven strategies and process improvements.

Key Skills

- Risk Management & Mitigation Strategies
- Data Analysis & Visualization (SQL, Python, R, Power BI, Tableau)
- Financial Modeling & Quantitative Analysis (Excel – Pivot Tables, VLOOKUP)
- Process Optimization & System Enhancements
- Regulatory Compliance & Reporting
- Cross-Functional Collaboration & Communication
- Trend Identification & Problem-Solving

Professional Experience

Risk Business Analyst
Mascoma Bank – New Hampshire, USA
Oct 2023 – Mar 2024

- Assessed and developed key risk indicators, improving risk detection accuracy by 15% using Power BI dashboards and Python-based models.
- Analyzed feedback patterns to recommend process improvements, streamlining risk reporting for senior executives with Excel pivot tables.
- Collaborated remotely with cross-functional teams to ensure compliance and enhance due diligence strategies, balancing operational efficiency with regulatory requirements.

Relationship Banker II
Mascoma Bank – Lebanon, NH
Oct 2022 – May 2023

- Evaluated client financial data to implement data-driven strategies, increasing revenue by 10% through targeted insights derived from Excel tools.
- Identified gaps in client onboarding processes and proposed enhancements, improving user experience while maintaining compliance standards.
- Communicated effectively with stakeholders to align business goals with risk management priorities.

Head, Fixed Income & Money Markets
Equity Bank Limited – Nairobi, Kenya
Nov 2013 – Nov 2021

- Managed a USD 1 billion Treasury Bonds portfolio, reducing adverse rate impacts by 12% with SQL and R-based forecasting.
